6.3 Location and placement
6.4 Maintenance and operation

Violations/Comment(s)

3717-1-05.4 Water, plumbing, and waste: refuse, recyclables, and returnables.
(N)Covering receptacles.
Receptacles and waste handling units for refuse, recyclables, or returnables shall be kept covered:
(1) Inside the food service operation or retail food establishment if the receptacles and units:
   (a) Contain food residue and are not in continuous use; or
   (b) After they are filled; and
(2) With tight-fitting lids or doors if kept outside the food service operation or retail food establishment.

The dumpster had one lid missing at the time of inspection. Please ensure the dumpster has working lids and the lids are kept closed to prevent pest entry and litter from blowing out.

The dumpster enclosure has been completed; however, the dumpster remains outside in the parking lot. Please keep the dumpster inside the enclosure as designed to discourage unauthorized access.

The facility has employee health notification forms and norovirus clean up procedures posted in the break room. Please note that the employee health notification form must be provided in a verifiable manner to help ensure that employees have been made aware. Person in charge stated that they sign a form when they are hired; however, they were not able to locate a signed form during the inspection. Please ensure that these forms are made available in a verifiable manner during future inspections.
