3717-1 OAC Violation Checked

Management and Personnel

2.1 Employee health
2.2 Personal cleanliness
2.3 Hygienic practices
2.4 Supervision

Food

3.0 Safe, unadulterated and honestly presented
3.1 Sources, specification and original containers
3.2 Protection from contamination after receiving
3.3 Destruction of organisms
3.4 Limitation of growth of organisms
3.5 Identity, presentation, on premises labeling
3.6 Discarding or reconditioning unsafe, adulterated
3.7 Special requirements for highly susceptible populations

Equipment, Utensils and Linens

4.0 Materials for construction and repair
4.1 Design and construction
4.2 Numbers and capacities
4.3 Location and installation

Water, Plumbing, and Waste

5.0 Water
5.1 Plumbing system
5.2 Mobile water tanks
5.3 Sewage, other liquid waste and rainwater
5.4 Refuse, recyclables, and returnables

Physical Facilities

6.0 Materials for construction and repair
6.1 Design, construction and installation
6.2 Numbers and capacities
6.3 Location and placement
6.4 Maintenance and operation

Poisonous or Toxic Materials

7.0 Labeling and identification
7.1 Operational supplies and applications
7.2 Storage and display separation

Special Requirements

8.0 Fresh juice production
8.1 Heat treatment dispensing freezers
8.2 Custom processing
8.3 Bulk water machine criteria
8.4 Acidified white rice preparation criteria
8.5 Facility layout and equipment specifications
8.6 Existing facilities and equipment

Administration

901:3-4 OAC
3701-21 OAC

Violations/Comment(s)

3717-1-02.4 Management and personnel: supervision.

(C) Person in charge - duties.

The person in charge shall ensure that:

1. Food service or retail food establishment operations are not conducted in a private home or in a room used as living or sleeping quarters as specified under paragraphs (S) and (T) of rule 3717-1-06.1 of the Administrative Code;

2. Persons unnecessary to the food service operation or retail food establishment are not allowed in the food preparation, food storage, or warewashing areas, except that brief visits and tours may be authorized by the person in charge if steps are taken to ensure that exposed food; clean equipment, utensils, and linens; and unwrapped single-service and single-use articles are protected from contamination;

3. Employees and other persons such as delivery and maintenance persons and pesticide applicators entering the food preparation, food storage, and warewashing areas comply with this chapter;

4. Employees are effectively cleaning their hands, by routinely monitoring the employees’ handwashing;

5. Employees are visibly observing foods as they are received to determine that they are from approved sources, delivered at the required temperatures, protected from contamination, unadulterated, and accurately presented, by routinely monitoring the employees' observations and periodically evaluating foods upon their receipt;

6. Employees are verifying that foods delivered to a food service operation or retail food establishment during non-operating hours are from approved sources and are placed into appropriate storage locations such that they are maintained at the required temperatures;

7. Employees are properly cooking time/temperature controlled for safety food, being particularly careful in cooking those foods known to cause severe foodborne illness and death, such as eggs and comminuted meats, through daily oversight of the employees’ routine monitoring of the cooking temperatures using appropriate temperature measuring devices properly scaled and calibrated as specified under paragraph (K) of rule 3717-1-04.1 of the Administrative Code and paragraph (Q) of rule 3717-1-04.4 of the Administrative Code;

8. Employees are using proper methods to rapidly cool time/temperature controlled for safety foods that are not held hot or are not for consumption within four hours, through daily oversight of the employees' routine monitoring of food temperatures during cooling;

9. Consumers who order raw or partially cooked ready-to-eat foods of animal origin are informed as specified
under paragraph (E) of rule 3717-1-03.5 of the Administrative Code that the food is not cooked sufficiently to ensure its safety;

(10) Employees are properly sanitizing cleaned multiuse equipment and utensils before they are reused, through routine monitoring of solution temperature and exposure time for hot water sanitizing, and chemical concentration, pH, temperature, and exposure time for chemical sanitizing;

(11) Consumers are notified that clean tableware is to be used when they return to self-service areas such as salad bars and buffets as specified under paragraph (O) of rule 3717-1-03.2 of the Administrative Code;

(12) Except when approved as specified in paragraph (A) (4) of rule 3717-1-03.2 of the Administrative Code, employees are preventing cross-contamination of ready-to-eat food with bare hands by properly using suitable utensils such as deli tissue, spatulas, tongs, single-use gloves, or dispensing equipment;

(13) Employees are properly trained in food safety, including food allergy awareness, as it relates to their assigned duties; and

(14) Food employees and conditional employees are informed in a verifiable manner of their responsibility to report in accordance with this chapter, to the person in charge, information about their health as it relates to diseases that are transmissible through food as specified under paragraph (A) of rule 3717-1-02.1 of the Administrative Code.

(15) Written procedures and plans, as specified in this Chapter and as developed by the food service operation or retail food establishment, are maintained and implemented as required; and

(16) The food service operation or retail food establishment shall have written procedures for employees to follow when responding to vomiting or diarrheal events that involve discharge onto surfaces in the food service operation or retail food establishment. The procedures shall address the specific actions employees must take to minimize the spread of contamination and the exposure of employees, consumers, food, and surfaces to vomitus or fecal matter.

A vomitus/fecal release clean-up procedure was not available at the time of inspection. Please ensure that a written clean up procedure to properly clean and disinfect the affected areas is available to control the spread of norovirus. AN EXAMPLE FORM WAS LEFT ON SITE.
