Violations/Comment(s)

3717-1-02.4 Management and personnel: supervision.
(A) Person in charge - assignment of responsibility.
(1) The license holder shall be the person responsible for the food service operation or retail food establishment. The license holder may be the person in charge or shall designate a person or persons in charge and shall ensure that a person in charge with applicable knowledge is present at the food service operation or retail food establishment during all hours of operation. This paragraph does not apply to a micro market as defined in Chapter 3717-1 of the Administrative Code.
(2) One year after the effective date of this rule, at least one employee that has supervisory and management responsibility and the authority to direct and control food preparation and service shall obtain the level two certification in food protection according to rule 3701-21-25 of the Administrative Code.
(3) Temporary, mobile, vending and risk level I and risk level II food service operations or retail food establishments are exempt from paragraph (A)(2) of this rule.

The facility currently does not have an employee with level 2 training in food protection. Please obtain this training as soon as possible as it was required as of March 1, 2017.

3717-1-04.8 Equipment, utensils, and linens: protection of clean items.
(G) Kitchenware and tableware - handling.
(1) Single-service articles, single-use articles, and cleaned and sanitized utensils shall be handled, displayed, and dispensed so that contamination of food-contact and lip-contact surfaces is prevented.
(2) Knives, forks, and spoons that are not prewrapped shall be presented so that only the handles are touched by employees and by consumers if consumer self-service is provided.
(3) Except as specified under paragraph (G) (2) of this rule, single-service articles that are intended for food-contact or lip-contact shall be furnished for consumer self-service with the original individual wrapper intact or from an approved dispenser.
Unwrapped stir straws were available at the bar for customer self service. Since these can be used to drink through, they must be pre-wrapped or individually dispensed to prevent bare hand contact with lip contact surfaces. The facility is using their existing stock before switching to pre-wrapped.
