Violations/Comment(s)
3717-1-03.2 Food: protection from contamination after receiving.
(Y)Miscellaneous sources of contamination.
Food shall be protected from contamination that may result from a factor or source not specified under paragraphs (A) to (X) of this rule.

Condiments stored in the corner shelf of the walk in cooler had mold on the containers and around the cap openings. Packaging shall be kept free from mold growth to prevent potential contamination of food products when using the containers. THE PRODUCTS WERE REMOVED TO TRASH TO CORRECT.

3717-1-04.1 Equipment, utensils, and linens: design and construction.
(KK)Food equipment - certification and classification.

(1) Except as provided in paragraph (KK) (2) of this rule, food equipment that is acceptable for use in a food service operation or retail food establishment shall be approved by a recognized food equipment testing agency.

(2) The Ohio department of agriculture, the Ohio department of health, or the licensor may approve the use of food equipment, other than vending machines, bulk water machines, and equipment that displays time/temperature controlled for safety food in a micro market, that have not been approved by a recognized testing agency if the equipment demonstrates compliance with this chapter.

The following non-commercial products were observed in the licensed kitchen during the inspection: A homestyle refrigerator, 3 roasters rated for "Household Use Only", and 2 crock pots rated for "Household Use Only". These items shall be removed from the licensed kitchen as only NSF approved commercial equipment shall be used.

3717-1-06.4 Physical facilities: maintenance and operation.
(D)Cleaning ventilation systems, nuisance and discharge prohibition.

(1) Intake and exhaust air ducts shall be cleaned and filters changed so they are not a source of contamination by dust, dirt, and other materials.

(2) If vented to the outside, ventilation systems may not create a public health hazard or nuisance or unlawful discharge.
The hood above the range top was accumulating grease deposits and needs cleaned at this time.
