### Violations/Comment(s)

*CRITICAL VIOLATION*

3717-1-07.0 Poisonous or toxic materials: labeling and identification.

(B) Working containers - common name.

Working containers used for poisonous or toxic materials such as cleaners and sanitizers taken from bulk supplies shall be clearly and individually identified with the common name of the material.

2 spray bottles of chemical were un-marked. In order to remove chance of contamination, the liquids were disposed of to CORRECT DURING INSPECTION.

3717-1-06.4 Physical facilities: maintenance and operation.

(A) Repairing.

The physical facilities shall be maintained in good repair.

There is a hole in the ceiling near the hand sink in the kitchen.

There is a hole in the wall near the electrical panel

The sneeze guard, on the new salad bar, could be trimmed as we discussed during the inspection. This would leave the the 45 degree angle surface intact, and only the lowest portions would be removed.

New interior surfaces have been installed in the walk-in cooler. All wooden shelves have been removed and replaced with commercial wire shelving.
