Observations and Corrective Actions

Mark "X" in appropriate box for COS and R: **COS** = corrected on-site during inspection **R** = repeat violation

Item No.	Code Section	Priority Level	Comment	COS	R
	Comment/ Obs		Observed one 110 Oz. can of spaghetti sauce in the dry storage room with damage to the bottom seal. CAN WAS REMOVED FROM SERVICE FOR RETURN. SEE ITEM 13	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Comment/ Obs		Observed one plastic spatula, two metal egg turners and two small ladles hanging on the rack above the table next to the handwash sink in the prep area with food particles on the food contact surfaces. The ice scoops and the holder for the ice scoops at both ice locations in the front waitress area were dirty and mold was present on one of the ice scoops. ITEMS MOVED TO WAREWASH AREA DURING THE INSPECTION. SEE ITEM 16	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Comment/ Obs		CCP: Food processes were discussed for all menu items. The manager on duty had good knowledge base. The only item that was not found during the inspection was the norovirus cleanup procedure. Evidence of condensation build-up on the lids of containers of food placed in the walk-in cooler to cool suggesting the containers had not been loosely covered to allow the heat to escape thoroughly during the cooling process. The hot items are stacked on a cart at close and pushed into the walk-in. This is a large stack of hot items, and could slow cooling considerably.	<input type="checkbox"/>	<input type="checkbox"/>
